ORNAMENTAL PLANTS

— FOR —
LANDSCAPE
GARDENING

Information

Weed's Landscape Nursery is situated on the Canyon Road six miles west of Portland, being one mile east of Beaverton. Howard Evarts Weed, a Landscape Architect, formerly of Chicago, established the nursery in 1910. Wilbur W. Weed, a son, graduate in Landscape Gardening of the O. A. C., is associated with him. Landscape Gardening is made a specialty, a large business being done in the planning and ornamental planting of estates, suburban homes and city residences throughout the Pacific Northwest.

We grow the hardy ornamentals—flowering deciduous shrubs, broad leaved evergreens, conifers, shade trees and a full line of perennial flowers. Of these we have all the hardy varieties which are successfully used in landscape work in the Pacific Northwest. In this catalog are given only the leading plants used in this field, but as we grow many kinds and varieties not mentioned here, we can fill any order for ornamentals and will be pleased to make quotations. We do not handle greenhouse stock, bedding plants, annuals or the spring bulbs. Anything listed in this catalog can be depended upon for successful outdoor planting.

Our Landscape planting begins late in October and continues until the first of April. Fall planting is much preferred on account of this allowing the roots to become established during the winter months. In this way the plants make a better growth the first season. Peonies and Iris are planted from the first of September to March, the early planting being best. Peonies should not be planted after March, altho Iris can be successfully moved at any season.

Our displays of Peonies and Iris at the Rose Shows each year are a revelation to most people as to the beauty of these flowers. We have thousands see our fields of flowers during May and June. Those who visit the nursery once, get the habit and come often. If Weed's Landscape Nursery is still unknown to you, come out and investigate for yourself. You might like it and thus find a place to go, or to bring your visiting friends when out for a drive.

WINTER BLOOMING IRIS

Photographed Jan. 16th

These Iris are in continuous bloom
from December to April.

Planting Plans and Estimates

An inspection of stock at the nursery is invited at all times. In choosing stock at any particular season customers find only certain plants in bloom. These take their fancy and many more equally beautiful plants are overlooked because of blooming at a different season. To aid in the selection of stock for ornamental planting and to insure proper placing as regards colors, habitude and ultimate heights, we offer our landscape service.

If you contemplate the beautification of your home grounds, it is important that you know where and what to plant to produce the most pleasing effects. Shrubs and flowers, rightly placed, will add to the appearance of a home more than any other improvement one can make for a similar expenditure. In planting even a small yard, a planting plan is necessary in order to avoid inharmonious effects.

If you desire a plan of your yard, the next time we are in your locality we will take the necessary measurements and submit a planting plan to you. This plan will be drawn to scale, showing where and what trees, evergreens, shrubs and flowers should be planted, with an itemized list of all plants and their cost. In this way you will know just what it will cost for the planting of your yard. We make these plans for our customers without charge in order to show the possibilities of the correct planting of ornamental plants. The plan and list is our proposition for the improvement of your grounds.

We grow all the plants used in landscape gardening, and thus are able to furnish better plants and at less cost than can agents or gardeners. Our 20 years experience in this work is at your service for the asking. We use the broad-leaved evergreens for mass planting next to a house foundation and the flowering plants and perennials on the border of a lot, leaving the center entirely in lawn. We carry out your ideas in so far as these coincide with proper landscape design. Further information will be gladly furnished upon request.

Too often home owners leave the planting of shrubs, trees, and flowers to gardeners without experience in artistic arrangement. The result is that entirely too many varieties are placed in a group, so that the place as a whole looks overdone. It lacks that quiet, restful, appearance a home yard should possess. This is also often the case when the home owner selects the plant materials.

There is no guess work about our landscape service. We visit your home, take the measurements of the yard, ascertain your desires, the amount you are willing to expend, submit you a planting plan showing just where and what is to be planted together with an itemized list of everything we propose to plant and its cost. After your approval, the planting is done at the proper season and our work guaranteed. We can show you examples of our work right in your own locality. We will also be pleased to show you at the nursery the plants which we propose for your planting.

The Deciduous Shrubs

To this class belong those shrubs which are without leaves during the winter months. In the following list are those which produce the most flowers and by which the best landscape effects are obtained. In our landscape service we arrange them in a mass of three or more in a group, giving a selection which will flower from March until November. The plants which we furnish are from two years old up, depending upon the variety. In height they range from 18 inches for the dwarf Spirea Waterer to five feet for Tartarian Honey-suckle. Mere height, however, is of no real value in a shrub. It is the root system which counts. All shrubs should have the tops well cut back when transplanted in order to promote a thrifty new growth.

Unless otherwise stated the price is fifty cents each for all the deciduous shrubs.

- ARALIA spinosa.** Hercules Club. Immense compound leaves which give a tropical effect. In August tops covered with large clusters of white flowers followed by black berries.
- AZALEA occidentalis.** Western Azalea. A large shrub with masses of white or rose flowers in May\$3.00
mollis. Chinese Azalea with yellow flowers..\$3.00
- BERBERIS thunbergi.** Japanese Barberry. A very dependable small shrub covered with red berries in autumn.
- BUDDLEIA davidi.** Butterflybush. A fast growing tall shrub bearing beautiful lilac flowers. Should be cut nearly to the ground each spring.
- CORNUS alba.** Coral Dogwood. Has showy red bark in winter.
- CORYLUS purpurea.** Purple Filbert. Large, dark purple leaves\$1.00
- CYDONIA japonica.** Flowering quince. With white, pink or red flowers in April. Subject, however, to San Jose scale.
- CYTISUS andreaeus.** Paradise Broom. Bright yellow flowers with red center.\$1.00
scorpiarius. Scotch Broom. Yellow flowers in spring25c
globosa, A dwarf, compact form growing only 3 feet\$1.00
praecox. Yellowish white bloom and long, slender, drooping branches. 3 feet.....\$1.00
- DEUTZIA crenata.** Tall Deutzia. White flowers.
gracilis. Slender Deutzia. Growing less than 3 feet.
lemoinei Lemoine Deutzia. Medium in height.
- DIERVILLA sessifolia.** Yellow flowers in June. 3 feet high.
- EXOCHORDA grandiflora.** Pearlbush. With numerous white flowers in June. Of tall growth.
- FORSYTHIA fortunei.** Bright yellow flowers in March before the leaves.
- HOLODISCUS ariaefolia.** Oceanspray. A tall native shrub with clusters of graceful white flowers in July.
- HYDRANGEA arborescens.** Smooth Hydrangea. Umbels of white flowers in July.
opuloides. Garden Hydrangea. Very large clusters of pink or blue flowers in summer \$1.00
paniculata. Panicle Hydrangea. Large beautiful flowers on the end of the stems in August. White changing to pink.

- KERRIA japonica.** Double Kerria. Beautiful yellow flowers for a long time, beginning in May.
- LONICERA tartarica.** Tartarian Honeysuckle. Pink bell-shaped flowers in early spring followed by red berries.
- Morrowi. Morrow Honeysuckle. White flowers.
- PHILADELPHUS Grandiflorus.** Mockorange. Beautiful white flowers in July which are quite fragrant. Tall.
- POTENTILLA fruticosa.** Dwarf shrub with yellow flowers in July.
- PRUNUS glandulosa.** Flowering Almond. The double pink flowers make this a very desirable shrub\$1.00
- RHODOTYPOS kerriodes.** Jetbead. Of medium growth and single white flowers. June.
- RIBES sanguinum.** Flowering Currant. Tall shrub with beautiful pink flowers in March.
- ROSA rugosa.** Rugosa Rose. The best rose for landscape use. Beautiful green foliage. Red or white flowers.
- SORBARIA sorbifolia.** 3 ft. The first shrub to put out its leaves in Spring. Masses of fine white flowers in July.
- SPARTIUM junceum.** Spanish Broom. Fragrant yellow flowers. July.....\$1.00
- SPIREA arguta.** Large sprays of white flowers in April. 3 feet.
- froebeli. Froebel Spirea. Three feet, with bright crimson flowers in July, the leaves turning red in autumn.
- prunifolia. Bridalwreath. With double flowers along the stem in April.
- salicifolia. Willowleaf Spirea. 5 ft. Masses of white flowers.
- Thunbergi. Thunberg Spirea. A fine leaved form, leaves giving an autumn color after Sept. A mass of small white flowers in early Spring. 4 feet.
- Vanhouttei. Vanhoutte Spirea. One of the best shrubs of all. Masses of white flowers in May and of good foliage effect.
- waterer. A dwarf shrub with showy crimson flowers. July.
- STEPHANANDRA flexuosa.** A dwarf shrub with beautiful serrated foliage and white flowers.
- SYMPHORICARPUS racemosus.** Snowberry. An Oregon native, 3 ft. Small pink flowers in April and large snow white berries in Autumn.
- vulgaris. Coralberry. A graceful dwarf shrub with small red berries in winter, much used for house decoration. This is a fine shrub for use on embankments.
- SYRINGA vulgaris.** Purple Lilac. Tall shrub flowering in May.....75c
- alba. White Lilac.....75c
- We can furnish named varieties at \$1.50 each.
- TAMARIX.** Tall shrub covered with light feathery foliage. Delicate pink flowers.
- VIBURNUM lantana.** Tall shrub, bearing flat cymes of white flowers followed by berries changing from green to red and black.
- opulus. Cranberrybush. Tall shrub bearing red berries in clusters.
- sterile. Snowball. Tall shrub with balls of white flowers in June.
- nanum. The most dwarf of all shrubs, growing 18 inches. Very fine and compact.
- tomentosum. Doublefile Viburnum. Tall shrub with single white flowers followed by red berries.
- plicatum. Japanese Snowball. Numerous balls of white bloom\$1.00
- WEIGELA Rathke.** Medium shrub with good foliage and red flowers in July.....75c
- rosea. Somewhat taller than the above. Beautiful pink flowers in June.

The Broad Leaved Evergreens

To this class belong those shrubs which retain their leaves in winter, their broad shining leaves distinguishing them from the Conifers. With them it is possible to make most excellent winter landscapes. In our landscape work we make "foundation plantings" practically entirely with these shrubs so that buildings may not look bare at any season. While they are not as prolific in bloom as the deciduous shrubs, many have beautiful red berries which hang on all winter and in this way produce delightful landscape effects.

All our plants have been transplanted and are dug with a ball of dirt intact. They range in height from a foot for some of the dwarf Veronicas to five feet for the tall Cotoneasters. None are less than two years old while most are three and four. The price, unless otherwise stated, is one dollar each.

- ABELIA grandiflora.** A recent introduction growing 3 to 4 feet with small shining leaves and graceful drooping branches. In autumn covered with light pink flowers.
- AUCUBA japonica.** Japanese Aucuba. Green leaves and scarlet berries.....\$1.50
- variegata.** Goldust Aucuba. With yellow spotted leaves\$1.50
- AZALEA hinodegiri.** A dwarf shrub with brilliant red flowers in May.....\$2.00
- BACCHARIS patagonica.** A new introduction with small shining leaves, yellow flowers, 4 ft.
- BERBERIS Darwini.** Darwin Barberry. Medium-sized plants, with shining leaves, yellow flowers and red berries
- buxifolia.** Compact Barberry. A dwarf berberry, very compact.
- wilsonae.** Wilson Barberry. Light green foliage.
- BUXUS.** Boxwood. The several varieties of this well known plant range from 6 inches to three ft.
- arborescens.** Tree Box. 3 ft. Small dark leaves fine for base planting.
- sempervirens.** Upright or cone-shaped plant. Compact, with small leaves. Useful for tubs. \$1.00 to \$5.00.
- suffruticosa.** Dwarf Box. Much used for low hedges25c to 50c
- CAMELLIA japonica.** With shining waxy leaves and beautiful waxy flowers in white, pink and red shades\$2.50
- CASSINIA fulvorda.** A beautiful shrub introduced by us. Fine leaves of a golden color. 5 ft. Resembles a Conifer at a distance.....\$2.50
- COTONEASTER Francheti.** An upright drooping plant with glaucous foliage. Red berries in the autumn\$1.50
- flocosa.** A new variety of great merit. Medium in growth, with leathery foliage.....\$1.50
- horizontalis.** Rock Cotoneaster. Low shrub with horizontal branches. Red berries, retained all winter. Much used for planting embankments
- microphylla.** Similar to the above but leaves not so shiny. Berries larger but not so numerous

- Simonsi.** Simons Cotoneaster. Upright shrub. 6 ft. Berries bright red
- DAPHNE odora.** Winter Daphne. Waxy, light green foliage and pink flowers in March..\$2.50
- ERICA hybrida.** Scotch Heather. A low growing, small leaved shrub bearing beautiful pink flowers. Much admired.
- EUONYMUS japonica.** Tall growing shrub with dark green shining foliage.
- patens.** A new acquisition. Small, serrulate, bright green leaves and orange berries.
- HYPERICUM calycinum** St. John's Wort. A low grower with large yellow flowers in July. Useful for planting on embankments.....50c
- Henryi.** Taller than var. Calycinum.
- ILEX.** Holly. A slow grower unless well watered. Eventually growing to considerable height. Can furnish in green or variegated foliage. Price \$1.00 a ft.
- LAUROCERASUS officinalis.** English Laurel. Large shrub, with large shining leaves. Small plants for hedges.....50c; 2-3 ft. \$1.00
- lusitanica.** Portugal Laurel. Tall spreading plant, with glossy leaves.....\$1.00 to \$1.50
- LIGUSTRUM sinense.** Chinese Privet. A graceful shrub with slender rather drooping branches and small bright green leaves. Covered in August with a mass of white flowers.
- variegatum.** Variegated Privet. With beautiful variegated foliage\$1.50
- LONICERA nitida.** Upright Evergreen Honeysuckle. A recent introduction of great merit. Small shining leaves, vigorous grower. Very good for base plantings
- pileata.** Of slower growth than the above and more dwarf.
- MAHONIA aquifolia.** Oregon Grape. Well known Oregon state flower. Should be more largely used in landscape work
- NANDINA domestica.** Heavenly Bamboo. An upright grower, with small compound leaves, which turn red in winter. White flowers followed by red berries.\$1.50
- PERNETTYA mucronata.** Dwarf grower, with beautiful small shining leaves showing red in winter. Large bright red berries.\$1.50
- PYRACANTHA coccinea.** An upright tall growing shrub bearing attractive clusters of red berries in autumn.\$1.50
- RHODODENDRONS.** The most attractive of all plants when in bloom yet lacking foliage at the base for proper landscape effects. Our plants are of stocky growth with 12 to 15 buds. Can furnish in white, pink, scarlet, and lavender \$5.00 to \$10.00
- STRANVAESIA undulata.** A handsome, tall-growing shrub, the new leaves having a coppery tinge. White flowers and scarlet fruit....\$1.50
- VERONICA.** These are dwarf shrubs of rather recent introduction but coming into great favor in landscape planting. They are from ten inches to three feet in height, with small evergreen foliage and white, pink and red flowers,

- cupressoides.** Grows to three feet. Fine foliage, resembling a conifer
- erecta.** A tall form of the buxifolia. Small leaves and erect growth.....75c
- VIBURNUM tinus.** Laurustinus. Large shrub with shining green foliage. Covered in February with umbels of small pink flowers.....\$1.50

Perennials

The hardy perennials are the only profuse-flowering plants we grow. Of these our collection is extensive. Only the most dependable varieties, especially those which may be used as cut flowers, are listed here. Achillea, Rosemary, Santolina, Soline, and a hundred others are omitted from this list, being regarded as not of real value, comparatively speaking. Our collection is quite complete, however, and orders can be filled for anything of real worth.

The perennials are flowers which, once planted are ever present. They are best planted in a group by themselves in what has come to be known as "the perennial border." In planting it is best not to mix them with the shrubs, but rather place in front of a shrubby background. It is better to put all the phloxes together, all the iris together, and so on, than to distribute each indiscriminately, without arrangement.

A suitable list and garden arrangement will be made up if dimensions of the space desired planted to the perennials are sent to us. There are so many good perennials that no home need be without cut flowers thruout the year, even during the winter months, for by the time the hardy asters are gone, the Winter-blooming iris come into flower. Money spent in the purchase of perennial flowers gives pleasure for all time and the flowers have a silent influence for the better in our lives that cannot be measured in terms of money.

One will be well repaid for time expended in visiting the nursery to see the perennials in flower. Each month of the year brings different flowers and the visitor will find bloom of some kind, no matter the season. The last of May or the first part of June finds acres of peonies and iris in their glory. It is strongly urged that a visit be made at this time if it is not possible to come more often.

The price of all perennials, unless otherwise stated, is 25c each for strong clumps, or \$2.50 a dozen. The small, weak plants usual to the mail order trade are not handled.

ACONITUM autumnale. Aconite. Beautiful blue flowers. September.

ALYSSUM saxatile. Goldentuft. A dwarf yellow flower of early Spring.

ANCHUSA Italica. Dropmore. Many small blue flowers. June.

ANEMONE. Whirlwind, white. September and October.

Queen Charlotte. Beautiful pink.

- ANTHEMIS *tinctoria kelwayi*. Plants covered with mass of yellow flowers. July.
- AQUILEGIA. Columbine. Pink, blue, or yellow. We have an extensive assortment of these flowers.
- ARABIS *alpina*. Rockress. A pure white, low, Spring flower.
- ARMERIA *latifolia*. Thrift. Beautiful pink. June.
vulgaris. Of more dwarf growth than var. *latifolia*.
- ARUNCUS *sylvester*. Goatsbeard. A tall plant with handsome white flowers. Foliage much divided.
- ASCLEPIAS *tuberosa*. Butterfly Weed. Bright orange flowers.
- ASTILBE *astilboides*. With dense spikes of white flowers.
Salmon Queen. A variety with salmon-pink flowers
- ASTER. The Michaelmas Daisy. Mostly tall, fall flowering. All varieties satisfactory for garden and as cut flowers.
- Amellus *elegans*. Deep lavender.
Climax. Large bright violet.
Edith Goodwin. Large deep blue flowers.
Effie. Azure blue.
Feltham Blue. Clear blue.
Ivy Logan. Long sprays of dark blue circular flowers.
John Wood. Lavender-blue.
Jupiter. Large, pale lavender with yellow center.
Lil Fardell. Bright mauve.
Maggie Perry. Large flowers of soft mauve.
Mrs. Davis Evans. Azure-blue flowers.
Mrs. Rayer. Crimson.
Perry's Favorite. Large, red.
Perry's White. Fine large white.
Robert Parker. Pale heliotrope.
Saturn. Large, light violet flowers.
St. Egwin. Rose-pink.
Subcaerulea. Bright mauve. June.
The Garden. Large lavender-pink.
White Queen. White.
Wm. Bowman. Fine purple.
- BELLIS *perennis*. English Daisy. Dwarf, early, spring flowers in white and pink.
- BOCCONIA *cordata*. White flowers on tall coarse plant.
- BOLTONIA *asteroides*. White flowers in Sept.
latisquama. Pink flowers on dwarf plant.
- BRAUNERIA *purpurea*. Purple Rudbeckia. Large daisy-like flower. Fine as an everlasting.
- CAMPANULA *carpatica*. Hair bell. Light blue.
Grossel. Dark blue bell-shaped flower. July.
persifolia. Peach bell. Light blue. June.
- CENTAUREA *montana*. Corn flower. Large blue flowers. Summer.
- CENTRANTHUS *alba*. White. Flowers all summer.
rosea. Pink.
rubra. Red.

- CERASIMUM tomentosum.** Snow in Summer. Silvery foliage, white. June. Not good for cut flowers.
- CHRYSANTHEMUM maximum.** Shasta Daisy. Large, white. Summer.
Mrs. Bell. Large flowers on a tall stem.
Ostrich Plume. Large flowers in midsummer.
Glory of Wayside. Blooming in May.
- CHRYSANTHEMUM.** Hardy Autumn bloomers.
Anna L. Moran. Large button, orange scarlet.
Excelsior. Aster-flowered bright yellow.
Fernridge. Single, large bright red.
Firelight. Aster-flowered, bright red.
Nellie Blake. Aster-flowered, red orange.
October Gold. Aster-flowered, rich orange-yellow.
- COLCHICUM autumnale.** Autumn-crocus. A bulb plant, with leaves appearing in Spring and the beautiful crocus-like flowers in September. .50c
- COREOPSIS lanceolata.** Dwarf plant, covered with bright yellow flowers.
- DELPHINIUM belladonna.** Hardy Larkspur. Azure blue. June and July.
hybrids. Dark blue. June and July.
- DIANTHUS barbatus.** Sweet William. Various colors, all Summer.
plumarius. Garden Pinks. In pink, white and scarlet.
- DICENTRA spectabilis.** Bleedingheart. Heart shaped deep pink flowers in April.50c
- DORONICUM excelsum.** Large Daisy-like. March and April.
- ECHINOPS ritro.** Globethistle. Round heads of steel blue flowers in July. Everlastings.
- ERYNGIUM amethystinum.** Blue Thistle. Beautiful metallic flowers. Everlasting when dried. 50c.
oliverianum, smaller than var. Amethystinum. .50c
- FILIPENDULA ulmaria.** Meadow Sweet. Delicate clusters of white flowers on tall stems. June and July50c
Rubra. A variety with beautiful pink flowers 50c
- GAILLARDIA.** Considered the best of all perennials. In bloom all summer. Large yellow petals with dark center.
- GEUM.** Mrs. Bradshaw. Fine red. May and June.
- GYOSOPHYLLA paniculata.** Small white flowers in July which are good as everlastings. Added to a bouquet with other flowers will give a delightful effect. We carry the superior double variety only75c
- HELENIUM autumnale.** Bright yellow flowers. September.
Bigelowi. Showy during August with terminal clusters of deep yellow flowers, brown center.
Hoopesi. With clusters of orange flowers in Spring.
Riverton Beauty. Lemon yellow. Flowers on tall stems. September.
Riverton Gem. Coppery red, tall. September.
- HELIANTHUS.** Perennial Sunflower. July-Oct.
H. G. Moon. Yellow on strong stems.
Miss Melish. Large yellow.
Multiflorus. Fine double.
- HELIOPSIS excelsa.** Rich crome yellow flowers in July which change to bright yellow as they mature. Fine for cut flowers.
Pitcheriana. Beautiful deep golden yellow.
- HEMEROCALLIS.** Yellow Day-Lily. May to Aug.
Baroni. Pale yellow. July.
Dumotieri. Orange, shaded brown. May.
Flava. Clear yellow. June.
Florham. Golden yellow. July.
Fulva. Coppery orange. July.
Gold Dust. Rich clear yellow. June.
Ochroleuca. Pale lemon. July.

Luteola. Orange yellow. July.
Thunbergii. Rich yellow. July.

HEUCHARA sanguinea. London Pride. Fine red-
dish flowers. June.

HOLLYHOCK. Tall, in many colors. Suitable for
background.

IRIS. Practically all of the best and newer kinds
of Iris are numbered in this collection. More
than 600 varieties are kept after some hundreds
have been discarded as not being up to a high
standard of excellence. Iris in our collection are
in constant bloom from December to the middle
of July, the main showing in May, at which time
thousands of visitors view the blooms. Our
special Iris catalog from which this list of
varieties is taken will be sent upon request. The
letter S. in the descriptions refers to the standards,
(upright petals) and the letter F., the falls
(drooping petals).

THE WINTER BLOOMING IRIS.

These Iris bloom continuously from December
to April, the flowers often showing above a
covering of snow. Coming at such a season they
are appreciated above all other outdoor flowers.
No garden is complete without them.

Speciosa. S. clear lilac; F. purple.....\$1.00

Marginata. S. lilac-blue; F. Margined white..50c

DWARF BEARDED IRIS. These bloom in April.

As the flower stems are short, they should be
planted in the foreground. Price.....25c

Cyanea. Rich blue, large and handsome.

Eburnea. S. almost white; F. pale yellow.

Schneekuppe. White thruout.

INTERMEDIATE IRIS. These bloom from the
middle of April to the middle of May. Flower
stalks two feet. Price.....25c

Albicans. A fine pure white

Don Carlos. S. blue; F. velvety reddish purple.

Fritjof. Lavender-purple.

Helge. Lemon-yellow.

Kochi. Handsome rich claret-purple.

Prince Victor. Blue-violet.

THE TALL BEARDED IRIS. Flowers during May
and early June. Flower stalks from two to
three feet.

Alcazar. Considered the most striking iris of all.
S. blue-violet; F. deep purple.....50c

Aurea. Rich crome yellow. 25c

Dr. Bernice. S. canary bronze; F. velvety crim-
son. 25c.

E. L. Crandal. S. pure white; F. white heavily
bordered blue at the base. 25c

Greater May Queen. A fine pink tone.....50c

Isoline. S. silvery-lilac; F. mauve. A large,
striking flower25c

Princess Beatrice. Lavender, sweet-scented and
tall50c

Perfection. S. light blue; F. violet-black.....50c

Rugajo. A distinct iris with red markings....\$1.00

Western Dream. A very beautiful violet.....\$1.00

MISCELLANEOUS IRIS.

Siberica. Handsome clear blue flowers.....25c

Spuria aurea. Deep golden-yellow flowers, with
tall foliage50c

Spuria ochroleuca. Large white flowers and tall
distinct foliage50c

JAPANESE IRIS. These come into flower after all
all the other Iris are gone. Best grown in direct
sunlight with plenty of water just before flower-
ing. These varieties are select. Each....50c

- Angel's den. Vinous purple, speckled grey. 6 petals.
- CLOUDY SKY.** White center, tipped crimson-red. 6 petals.
- Gold bound. Large pure white. 6 petals.
- Kuro kumo. Deep purple, overlaid with blue. 6 petals.
- Oyodo. Large violet blue. 3 petals.
- Pyramid. Light violet-blue. 6 petals.
- KNIPHOFIA.** Red Hot Poker.
- foliosa. Spring flowering. Bright red.
- pfitzeri. Red and yellow. August and September.
- LESPEDEZA Sieboldii.** A tall shrubby perennial bearing beautiful pink-purple flowers in September50c
- LIATRIS pycnostachya.** Beautiful light purple flowers at the end of a tall stem. Next to Gaillardia the finest of all perennials. May be kept as an everlasting all winter...50c
- LILIUM candidum.** Madonna Lily. Beautiful white, late June.....35c
- auratum. Gold Banded Lily. Large flowers of rich creamy white, spotted with crimson and brown. August75c
- elegans. Fine red. June.....35c
- longiflorum. The Easter Lily so much grown by the florists, but which is hardy in Western Oregon50c
- regale. The finest of all outdoor lilies. Large beautiful white. Must be seen to be appreciated
Price\$1.00
- tigrinum splendens. The orange lily with black spots. A profuse bloomer which should be in every garden35c
- LUPINUS polyphyllus.** Lupine. Blue. June-July.
- Moerheimii. Excellent pink.....50c
- LYCHNIS.** Bright red. July.
- LYTHRUM roseum.** Shrubby stems with rosy flowers, 3 feet.
- NEPETA mussini.** Lavender flowers and grey foliage. Dwarf.
- OENOTHERA youngi.** The evening primrose with bright yellow flowers.
- PAPAVER orientale.** Oriental Poppy. The brightest flowers of the month of May.
- Mahony. Deep mahogany-maroon.
- Oriflamme. Fine orange-scarlet.
- Rose Queen. Delicate rose-pink.....50c
- Royal Scarlet. Brilliant scarlet.....50c
- PEONIES.** The Weed Peonies form the most complete collection in the west. More than 500 varieties are grown, those varieties scoring under 7.5 on a basis of 10 for perfection, having been discarded. Thus every variety listed is of superior merit. It is not true that "all peonies are good," except to those who know not the excellence of the best varieties. Our special peony catalog will be sent on request.
- RED PEONIES.**
- Officinalis rubra. Very early.....\$1.00
- Adolphe Rousseau. Tall early.....\$2.00
- Louis Van Houtte. Mid-season.....\$1.00
- Felix Crousse. Fine late.....\$1.00
- PINK PEONIES.**
- Edulis superba. Early.....50c
- Modeste Guerin. Mid-season.....\$1.00
- Mlle. Leonie Calot. Late\$1.00
- WHITE PEONIES.**
- Festiva maxima. Early.....\$1.00
- Mme. Crousse. Midseason.....\$1.00
- Marie Lemoine. Late\$2.00

BEST SINGLE WHITE.

Albiflora. The Bride.....\$2.00

GOOD JAPANESE.

Cascade. White, resembles a water-lily.....\$2.00

Titian. Rose-pink\$2.00

THE BEST PEONY OF ALL.

Reine Hortense. Large full rose-pink, with bloom size of a small cabbage. Will last as cut flower for two weeks if picked in bud.....\$5.00

PHLOX. Phlox are the most admired flowers of July and August. More than sixty varieties are included in our collection. The phlox are rather dwarf plants with great clusters of flowers in various colors, mostly white, pink or red. No collection of perennials is complete without these plants.

Champ's Elysees. Beautiful violet-purple.

Hodur. Flesh pink, with white eye.

Jeanne D'Arc. Fine late white.

Kossuth. Carmine-violet.

Mrs. Fryer. Vigorous white.

Peachblow. Delicate pink, suffused white.

Rubus. Light carmine-violet.

Struthers. Fine rose pink.

POLYGONUM affine. Low growing; with beautiful bright rose-red flowers in September.

cuspidatum. Tall rather coarse plant. Fine for background. White. July.

PRIMULA auricula. Primrose. Various colors. Fine rock plants. April.

polyantha. English Primrose. Yellow, bronze, red or white.

PYRETHRUM roseum. Resembles the Shasta Daisy. Pink.

RANUNCULUS acris fl. pl. Double Buttercup. Yellow. June.

RUDBECKIA lacineata. Golden Glow. Large double, yellow.

nitida. A tall grower, single, yellow.

speciosa. Black-eyed Susan. Dwarf grower. Yellow petals, dark center.

SALVIA azurea. Exquisite blue. Flowers on long stem. September.

SAXIFRAGA cordifolia. One of the first flowers of spring. Thick metallic leaves. Pink flowers in clusters.

SCABIOSA caucasica. Fine blue. July-September.

SIDALCEA. Rose Queen. Pink flower on tall stems. June.

SOLIDAGO canadensis. Goldenrod. With large panicles of golden flowers in Autumn.

STATICE incana. Small white flowers, good everlasting. June-September.

STOKESIA cyanea. Corn Flower. Lavender-blue, June-September.

VERONICA spicata alba. Dwarf plant. White. June-August.

corymbosa. Blue.

VIOLA cornuta. Blue-violet. Pretty, but flowers small.

The Conifers

To this class belong those evergreens which bear cones, as distinct from the "broad leaved evergreens." Most of the Conifers become large trees. This must be taken into consideration in their planting. In landscape work they are mostly used as specimen plants at one side of the lawn. All of our Conifers have been several times transplanted. Plants can thus be lifted with a ball of dirt intact. In digging the roots are completely wrapped with burlap.

Conifers are slow of growth and thus comparatively expensive. Unless otherwise stated the price is one dollar per foot. With most varieties any size up to six feet can be furnished, but those from two to three feet are recommended for general planting.

ABIES concolor. The Concolor Fir. With silvery green foliage. One of the best.

CHAMEACYPARIS Lawsoniana. Lawson Cypress. An Oregon Native, with delicate feathery foliage.

erecta viridis. Green column cypress. A dwarf erect form, with bright green foliage.

erecta glauca. Blue column cypress. A compact dwarf form with bluish metallic foliage.

pisifera. Retinospora. Leaves fine and pointed.

plumosa. Of dense conical growth.

CUPRESSUS sempervirens. Italian Cypress. Of upright columnar growth.

CRYPTOMERIA japonica. Japan Cedar. A tall growing conifer with slender drooping branches, light green foliage.

JUNIPERUS. Chinensis. Chinese Juniper. Of beautiful steel blue color.

hibernica. Irish Juniper. A pretty graceful conifer with deep green leaves and upright branches.

sabina. Prostrate Juniper. A dwarf spreading form with trailing branches.

Virginiana. Redcedar. Of upright growth, with blue foliage.

PICEA engelmannii. Engelmann's Spruce. A fine compact tall grower.

TAXUS baccata. English Yew. Spreading branches and narrow dark leaves.

THUJA fastigiata. Pyramidal Arbor-vitae. An upright form, rather closely compact.

aurea. Golden Arbor-vitae. Of beautiful golden foliage on the new growth. \$1.50 per foot.

orientalis decussata. Rosedale Arbor-vitae. The most beautiful conifer for tubs or small single specimens. Very compact dwarf growing, with silvery new growth. \$1.50 per foot.

TSUGA mertensiana. Western Hemlock. Slender pendulous branches. Foliage dark green above, almost white beneath.

Climbing Vines

BOSTON IVY. Glossy green leaves, clinging to brick or stone50c

CLEMATIS paniculata. White fragrant flowers 50c

HONEYSUCKLE. Hall's Japan, leaves evergreen 50c

ENGLISH IVY. Thick shining leaves.....50c

ENGELMANN'S IVY. An improved Virginia Creeper which clings50c

WISTERIA. Purple or white.....\$1.00

POLYGONUM Auberti. The best climber of all. A rapid grower covered all summer with clusters of beautiful white flowers.....\$1.00

Ornamental Grasses

CORTADERIA argentea. Pampas Grass. Long, narrow drooping leaves with silvery plumes in autumn ...	75c
ELYMUS glaucus. Light blue narrow leaves,	50c
ERIANTHUS ravennae. Plume Grass. Numerous narrow leaves and showy plumes.....	50c
MISCANTHUS sinensis. Chinese Miscanthus. Narrow, drooping leaves	50c
gracillima. Leaves more narrow than var. sinensis, with white midrib.....	50c
variegata. Striped Miscanthus. Leaves longitudinally striped with green and silvery yellow	50c
zebrina. Zebra Grass. Leaves branded crosswise	50c
PHILARIS arundinacea picta. Ribbon Grass. Dwarf growing, with distinctly variegated foliage,	50c
YUCCA filamentosa. Yucca. Clusters of white flowers	50c

Shade Trees

Shade trees are used for both lawn and street planting. The Mt. Ash, Birch, Laburnum and Maples are especially desirable for lawn planting, while the Norway Maple, Linden and Horse Chestnut are best for street planting. Our trees are several times transplanted, thus having a fine root system which assures successful growth after leaving the nursery.

Prices are for medium sized trees, best suited for planting. In most varieties both smaller or larger sizes can be furnished, the size governing the price.

AMERICAN WHITE ASH. A tall growing tree of upright habit. 8-10 feet.....	\$2.00
PURPLE BEECH. Dark purple foliage, changing to red. 5-7 feet.....	\$2.50
JAPAN WEeping CHERRY. A beautiful single flowering cherry with pink blooms about April first. Much admired.....	\$3.00
DOUBLE FLOWERING CHERRY. Another Japanese tree with large double flowers the last of April. Very fine for single specimens in the lawn	\$3.00
FLOWERING CRAB. Beautiful double flowers in May. Another fine lawn tree.....	\$2.50
BOX ELDER. The Ash-leaved maple. 8-10 feet	\$2.00
AMERICAN ELM. Grows very tall. 8-10 feet	\$2.00
CAMPERDOWN ELM. A weeping form useful as an arbor	\$3.00
HAWTHORN. Scarlet flowering, 6-8 feet....	\$2.50
HORSE CHESTNUT. White flowering, 6-8 ft.	\$2.00
Red flowering. 6-8 feet.....	\$2.00
LABURNUM. Golden Chain. A fine small lawn tree, with clusters of golden flowers in June. 6-8 feet	\$2.00
LINDEN. American Basswood. 6-8 feet....	\$2.00
BLACK LOCUST. A rapid grower with beautiful compound leaves. 8-10 feet.....	\$2.00
NORWAY MAPLE. The most satisfactory shade tree for street planting. 8-10 feet.....	\$3.00
OREGON MAPLE. A fast growing large tree. 8-10 feet	\$2.00
SUGAR MAPLE. Similar to the Oregon Maple. 8-10 feet	\$2.00
MT. ASH. A beautiful shade tree with clusters of red berries in autumn. 5-7 feet.....	\$2.00
CAROLINA POPLAR. Rapid grower of spreading habit. 8-10 feet	\$1.50
LOMBARDY POPLAR. An erect, rapid grower. 10-12 feet	\$1.50

- PURPLE-LEAVED PLUM.** A small tree with reddish leaves, suitable for the lawn, 5-6 ft. \$2.00
- WHITE BIRCH.** A beautiful weeping tree, white bark, useful for lawn planting. 8-10 feet..\$2.50
- SYCAMORE.** Much used for street planting. 5-6 feet \$2.50
- PIN OAK.** Of compact habit, slow grower, 6-3 feet \$2.50

Roses

Roses are justly popular for the beauty of their flowers, yet they lack foliage for proper landscape effects. For this reason they should be planted either in a special place where they may be cultivated, or placed in front of taller shrubs. When planted in the single straight row as usual in Portland, they make anything but a successful landscape. If they must be in the front yard, they fit into the landscape scheme best by rounding out the border planting at the front corners with them.

The following comprise most of the standard sorts. We can furnish any variety desired and will be pleased to give prices on request.

- CECILE BRUNNER.** The small buttonhole rose. Bluish white75c
- COLUMBIA.** New. A very fine pink.....\$1.00
- DUCHESS WELLINGTON.** Saffron yellow coppery75c
- EDWARD MAWLEY.** Large deep crimson....75c
- FRAU KARL DRUSCHKI.** Best large white..75c
- GEN. McARTHUR.** Dark velvety crimson....75c
- GEORGE AHREND'S.** The "pink American Beauty"
Price75c
- GRUSS AN TEPLITZ.** Rich crimson scarlet...75c
- HOOSIER BEAUTY.** Velvety crimson.....\$1.00
- HUGH DICKSON.** Brilliant crimson-scarlet..75c
- IRISH ELEGANCE.** Single. Apricot.....\$1.00
- J. B. CLARK.** Bright crimson shaded maroon..75c
- JOSEPH HILL.** Salmon pink, shaded yellow and copper75c
- JULIET.** Outside petals old gold. Inside petals rosy red75c
- LADY HILLINGDON.** Orange yellow.....\$1.00
- LOS ANGELES.** Pink, toned with coral. New \$1.00
- Mme. CAROLINE TESTOUT.** The well known pink75c
- Mme. EDWARD HARRIOTT.** Vivid terracotta \$1.00
- Mme. MELANIE SOUPERT.** Sunset yellow, suffused amethyst\$1.00
- OPHELIA.** Orange salmon buds, opening to pink.
Price \$1.00

Climbing Roses

- CLIMBING CECILIE BRUNNER.** Baby rose, salmon pink75c
- CLIMBING TESTOUT.** Satiny pink.....75c
- DOROTHY PERKINS.** The popular pink climber.
Price75c
- Mme. ALFRED CARRIER.** White, tinted flesh 75c

“Say it With Flowers”

OURS is the nursery that is different. We believe in saying it with flowers in your home which are grown in your own yard. We show you what are the best flowers—those which can be grown with the least trouble. In the nursery we are constantly experimenting with new varieties, most of which are disappointing. But in this modest list we give only those plants which we can recommend and in this respect this booklet is different from most nursery catalogs. From an advertising standpoint it is the flowery descriptions which sell the plants. In this respect you may be disappointed in this catalog for we aim to mention only those plants which are truly of merit and to give only short descriptions of these.

We hope and expect your confidence, not only in our landscape service and the plants we offer, but in the prices asked. We claim to give the best possible service and this at a moderate cost.

There IS such a thing as ART out of doors. May we show it to you?
